Hettie the chicken

This is Hettie the chicken. Hettie lives on her own and has nothing to do. Can you spot her missing feathers on her neck? She has pulled them out herself.

Chickens need chicken friends to feel happy plus things to do such as exciting areas to scratch at, perches to sit on and even places to dust bath.

1

How do you think Hettie was feeling?

2

How was Hettie affected by the actions of people?

3

Why do Hettie's feelings matter?
